

Meeting 'Management Meeting'

Week 1 – Summer Term

Scribe – James Oatley

Old Business – Action Points from Last Meeting

Notes.

New Business

Code okay but testing is lacking

Will code be integrated by Wednesday? Not looking hopeful!

Programming should really be happening in pairs

Action Points

We will have a "lab session" Tuesday (4-6) and Wednesday to allow people to gain support. If your ticket definitely ISN'T done then you should come to the lab.

Testing must be improved, tests are not met and there are not enough

More commenting required on code
