Meeting Group

Week 3

Scribe – James Oatley

Old Business – Action Points from Last Meeting

Fixed pairs for next iteration - Yes

Html document to be created as described – On going point, being planned

Bug fixes to pick up individually or in pairs - Yes

Lab sessions 4 to 6 today and tomorrow (Wednesday 30th) – Good attendance

Lab sessions 1 to 3 next week – On going

New Business

Graphics module received, got a few issues

Iteration 4 ending now and iteration 5 starting today

Iteration 4 summary:

    Good, couple of things not (fully) integrated:

        Max and Ankitas code – Justified

        N guests – Justified, would just be overwritten by GUI

Action Points

Iteration 5:

    Due dates: 31/05/2014

    User stories:

        XML Playlist Validation (James and Prakruti)

            -    Has to be XML 1.1, defined at top

            -    Make sure the content is good

        Control slide content from "playback menu" (Steve and Paul)

- A bar that runs at bottom of slideshow

Text input area, new note, save (Ankita and Max)

- For each slideshow/recipe store a file with notes contained within

Display graphics object on slide (Roger and Zayyad)

- Will either be writing a new one or refactoring the one we are given, more information to come through

John and Sam to work on bug fixes
